Sites Notification
Chicago, IL 60604

Gentlemen:

Enclosed are 36 EPA Form No. 8900-1 Notification of Hazardous Waste Site. Of these notifications, 13 are lessees who have filed Form 8700-1/2 "Notification of Hazardous Waste Activity" and/or a Part A Application for Hazardous Waste Permit. Lessee notifications did not indicate on site hazardous waste disposal practices in any case.

Also please find 20 notifications of derailment sites involving spills of materials which are or could be considered Hazardous Wastes as defined by RCRA. The spills were of a reportable quantity but no information is available to determine whether the spills have been cleaned up. Due to the short time allotted for this reporting, sampling could not be completed at any of the sites to determine if any of the material still remains or if sufficient biodegradation has occurred to render such spills harmless.

Two (2) notifications are being made of sites presently owned or owned in the past where disposal operations have or had taken place. These sites were used primarily for disposal of railroad related refuse including yard cleanings, box car linings, damaged un reusable materials, used fuel filters, old ties, etc. Once again, there is no information which is available to indicate that the sites contain hazardous wastes but are being filed for safety sake.

One (1) notification is being filed for an old gravel pit leased to General Motors Corporation for disposal of paint wastes. A copy of the General Motors' notification on this facility is attached.

If you have any questions, please contact the writer at (312) 648-3460.

Very truly yours,

Robert E. Fronczak, P.E.
